"You Are The People"

Visit "[You Are The People](#)" on MotoLyrics.com

World is turning, standing still. And
The people don't know well they've got no will.
They could stand, And
They can do what they please
People? no-no... never, darling

Going down.
Going, I know we're going down
to river town
right?

Love making? what do they think they'll do?
What do you think they'll do with you?
Do something now! do something fast
People? no-no... never, darling

Going down.
Ooohh!... Going, I know we're going down
in river town
Take it!... take it.

World is turning, standing still. And
The people don't know well they've got no will.
They could stand, And
They can do what they please
People? no-no... never, darling

Going down.
Mmmhh... Going, I know we're going down in river town
Say: "take it", I know we're going down
In river town. Say it!
