"Follow Me Into The Night"

Let me take you by your hand
I feel the darkness in your heart
Lead you to another land
It's just a different point of view
Close your eyes and come with me, girl
Follow me, into the night
Into the night

Let me kiss you hard my love
Nothing will tear us apart
I'll protect you in your dreams
I'll be with you, when you scream
Stay with me, don't be afraid
Follow me, into the night
Into the night
Ho Ho-Hey Ho Ho - Hey Ho

Follow me, follow me
Into the night
Follow me, follow me
Into the night
Follow me, follow me
Into the night
Follow me, follow me
Into the night
