### "Get The Music On"

Visit "[Get The Music On](#)" on [MotoLyrics.com](http://MotoLyrics.com)

(ooh)  
Don't you get me wrong  
I need your love but not for long  
Coz tomorrow you'll be gone  
Don't have to phone

When the DJ sets me free  
Music's all I need  
Can't break my heart tonight  
Give me your energy

Hit me with that feeling  
Now you've got me breathing (over and over)  
I need you for my lover  
I love you 'till the end of tonight

Chorus:  
Get the music on! let there be no doubt  
Coz you know Love is a four-letter word  
We can do without  
Get the music on! let there be no doubt  
Coz you know Love is a four-letter word  
We can do without  
Get the music on

I tuck my angle rays  
But you don't have to say  
Coz the music's in my head  
But the beat still goes on

Hit me with that feeling  
Now you've got me breathing (over and over)  
I need you for my lover  
I love you 'til the end of tonight

Chorus:  
Get the music on! let there be no doubt  
Coz you know love is a four letter word  
We can do without  
Get the music on! let there be no doubt  
(turn it up for me, your body's on the beat

I wanna make you mine, and run up from behind)  
Get the music on!.. no doubt  
(don't you ever stop, you know I'll burn it up  
you know that can't be wrong, so get that music on)

Build it up now, break it down now  
Give it to me  
(work it out) Work it out now  
Watch me get down (watch me get down)  
Give it to me  
Get the music on! ooh  
Get the music on! ooh  
Give it to me, give it to me

Chorus:  
Get the music on (ooh)! let there be no doubt  
(let there be no doubt)  
Coz you know love is a four letter word  
We can do without (I can do without)  
Get the music on!. no doubt (let there be no doubt)  
Get the music on!. I can do without (I can do without)  
Get the music on! Let there be no doubt  
(turn it up for me, your body's on the beat  
I wanna make you mine, and run up from behind  
don't you ever stop, you know I'll burn it up  
you know that can't be wrong, so get that music on)  
(fade out)
