I can get no sleep without you
There's no more air to breath
Without you
I built my whole world
Around you
Oh I feel like I'm missing you

I can get no sleep without you
My heart doesn't beat without you
I can't even breath
Fall on my knees
'Cause the sun doesn't shine
Without you
I ask myself what happened to me
Where's all the love
We used to feel
So tell me what can I do
I miss ya

I can get no sleep without you
There's no more air to breath
Without you
I built my whole world
Around you
You change bitter to sweet
Make my heart beat

Can I see the sun without you
When all the stars are gone
Without you
Don't know where I belong
Without you
Oh I feel like I'm missing you

I built my whole world
Around you
What'cha feel don't you feel I like I do
Don't know what's wrong
Where I belong
'Cause something's going on
About you

I wanna put my arms around you
Still got so much love
To show you
There's one thing you have to know
I wanna be with you I miss ya

I can get no sleep without you
There's no more air to breath
Without you
I built my whole world
Around you
Oh I feel like I'm missing you
