[Chorus]

What

Do ya'll wanna do (what ya'll wanna do, what)

Do ya'll really want beef (do ya'll)

And do ya'll want it with me (uh-uh)

I don't think soooooo

What

Do ya'll wanna do (what ya'll wanna do, what)

Do ya'll really want beef (do ya'll)

And do ya'll want it with me

Nooooooooooooo

[Silkk the Shocker]

I thought I left, all that drama dog, back in the streets  
I gotta result to riding low, and my homies in the back  
seat

See, you know we the type of boys that burn blocks

I aint fucking wit them boys, them boys done turned  
pop

They should of turned and run, but now they turned  
and come

They wanna turn to gun, I gotta turn to none

See, ya'll gone fuck around and turn me back to the old  
Silkk

And them boys who know me, ya'll know Silkk

They know I'm the Shocker, that means I don't play no  
games

I say it directly, but this time I aint gone say no names

Uh, my whole click, they with it, with it

And you know, no ski mask on who did it, did it, (did it)

[Chorus]

[C-Murder]

Now, Check this out

Now what you wanna do, cause too many niggas are  
feeling played

'Til I check 'em and correct 'em, and totally disrespect  
'em

Like bitches, they snitches, motivated by nigga's riches

And want be satisfied 'til they die, or lost in ditches  
Bury me TRU nigga shit No Limit Records  
Respect us, and never check us, real niggers we  
causing ruckus  
And the 504, the boot, the south, the gutter, and the  
swamp  
Fake niggers can't hang or slang cause they get  
banged and even stomped

[Krazy]

You can tell these bitch niggers, don't want war with  
me  
I'm A Iberville nigga 'till they bury me  
Recognize, I'm a motherfucking soldier nigga  
Hearing screams from your family while I'm clutching  
my triggas  
My whole click, straight up scandalous, if it's beef, you  
will see  
Niggers heads getting bust, if they fuck with me  
These niggers don't wanna fuck with us, they betta get  
out tha way  
Holiday gotta "k", he knows where you stay

[Chorus]

(suga bear) do you really wanna mess with me  
Fool around and be my enemy [\*repeat 3x\*]  
do you really wanna mess with me hand me the thang  
so we can handle beef
