[Master P]

Keep your head up boo,  
Girl feel me, and if you love me, you gon' love me till  
they kill me  
Girl feel me, girl feel me, I'm a thug, but love me till  
they kill me  
Girl feel me, feel me, I'm a thug, but girl, love me till  
they kill me  
Feel me, girl feel me, and if you real, you gon' love me  
till they kill me

Your friends try to tell you bout the things I do,  
They say I'm just too damn hard for you,  
All your friends think I'm just too thuggish for you,  
But I can do what no other man can do

[Silkk]

Look  
See  
Wanna let this thuggish nigga in?  
Scared of the life, that I lead  
Can't change addicted to smokin' weed,  
Can't change addicted to havin' g's,  
See, you wait patient knowin' you could be draped in  
gold  
I can't deny, me an' you go together, like daytons, and  
vogues  
It's hard to find a true girl, that's a soldier  
See when I was in jail, you come see me  
When I was at home, you come over  
And see, you don't like to gamble,  
But this one you can win  
Knock knock on the door  
Knock knock once more  
This thuggish g's in

[Chorus:]

It's just the thug in me, girl  
They say I'm making too much cash  
It's just the thug in me, girl  
They say I'm living much too fast

It's just the thug in me, girl  
Your friends say I'm just too bad  
It's just the thug in me, girl  
Your people hope this thing wont last

[Master P]  
Girl feel me, girl feel me  
And if you real boo, you gonna be there till they kill me  
Girl feel me

And you were just too damn ghetto for me, (Girl feel me)  
All my friends think I'm just too good for you  
(But if you love me, be here till they kill me)  
I always think of ways to be with you (Girl feel me, or love me till they kill me)  
Oh baby

[Silkk]  
I guess it's just this thug livin'  
Got so scared, don't give me a hug  
Don't let your guard down, till one day, you might fall for this thug  
Pendin' the chances tryin' to get rich  
You don't even much trip  
But you get mad, when I call, females a bitch  
When I first met ya  
You were so, ha, scared to react  
But now when there's drama, you talk about step back  
And pass me the strap  
It's so much pain, in this game  
When I close my eyes  
I'll be mad at the world, sometimes I take it out on your thighs  
Now I wanna change  
But I can't stand being broke  
So if you wanna be there for me, Just sit back maintain, and cope [Chorus]
