Yeah..

I Don't Know What Heaven Like  
But I know what it is to be here  
And While I'm here, I'm gonna do whatever it takes to  
survive  
And hope that, when God judge me  
He judge me by my heart and not by my actions  
Shhh let them know what heaven like.

[Chorus]

I really wanna know what's Heaven Like  
(wanna know what's heaven like)  
If I closed my eyes, will I see a better life  
(gotta be a better place than this)  
Is there no more pain suffering or strife  
(I need to know, I need to know)  
Lord, please see me cry and tell me what's heavens  
like  
(what's heaven like)

Dear God I wrote you a letter, but I know its not needed  
See I'm cool and all, but could you help out all my  
people (please)  
There are kids dying and starving, I wish somebody  
would feed em  
Nobody playing their part, everybody being greedy  
I got letters from jail with my homies tears on it (tears  
on it)  
Put his last years on it  
Sometimes I feel haunted  
Is Heaven a place like I ain't never been  
And is Heaven a place where we don't ever sin  
And if there is a Heaven, what answers will find us best  
So I can tell my auntee with cancer she can finally rest  
(rest in peace)  
Through it all I'm just trying to remain bein a soldier  
????????????????????  
????????????????  
I thought I saw you but it was night time  
I don't know if I was woke or dreamin or was I in my  
right mind  
I wonder how many people have questions like mine

[Chorus]

Is Heaven for everybody and all of my people  
And everybody who left us on earth so we get finally  
meet em.  
I just wanna know why, I be missin my block  
And I wonder what happened to people like Biggie and  
Pac.  
'cause if there is a Heaven, I'm sure everbody wanna  
know.  
And if there is a place like this, I'm sure everyone  
wanna go.  
Im tired of struglin and husslin not knowing where to  
go...  
Im tired of struglin and husslin not knowing what for...

'cause see this life will get u fed up (fed up)  
Picture me telling my mom and dad to keep their head  
up  
Telling them its gonna be alright, when I knowing its  
not  
Telling my homie he's gonna be alright, when I knowing  
he's shot  
I wonder what he saw before he died that would leave  
him shook  
And should I believe everything I read in books  
God, just gimme some time  
If not, gimme a sign (lemme know)

What's Heaven like  
There's so many question I wanna ask  
But one day ain't enough (for real)  
I just wanna help my people out man  
Money aint about nothing  
I just want ya'll to know how I feel

[Chorus] (repeat 3x)
