Stained Ashes
"Born To Lose"

Dancing on a land mine
Just to pass the time
Blind leading the blind
So the drones will stay in line
Candy coated haulocauste
The whole family can enjoy
Blind faith has no cure
The whole world we've got in store

You tell me I was born to lose
This hate gave us the powere to choose
You swear I was born to lose
This hate gave us the world to lose

You know it seems like every fucking time
I turn around and look back at my life
I always knew I was born to fucking lose
Left to die and be used by fucks like you

Born to lose

You tell me I was born to lose
This hate gave us the powere to choose
You swear I was born to lose
This hate gave us the world to lose
