This isn't right
This can't be real
This place is a mess
There's no one around

Everything's all gone
It's all the same
There's nobody listening
There's no one to blame

I still believe that your on the outside
It's never been this way
I still believe that your on the outside
Afraid to come back in

It's burning inside
This pain is real
This place isn't safe
There's no one around

Everything's alright
It's all okay
There's nobody listening
There's no one to blame

I still believe that your on the outside
It's never been this way
I still believe that your on the outside
Afraid to come back in
To come back in

This isn't right for me to say
This isn't right
This isn't right for me to say
This isn't right

I still believe that your on the outside
It's never been this way
I still believe that your on the outside
Afraid to come back in

I still believe that your on the outside
It's never been this way
I still believe that your on the outside
It's never been this way
