"Perfect"

It's building up inside of me
It's almost like I'm given up
We'll never be the perfect thing
The rest unfit over me

Now (now) let's take it back
We're burning these bridges
And burning them black
Soon (soon) we'll break away
Never look back
What's more to say

We find ourselves again
Is it over now
Face to face
Is it so perfect, perfect now

If we find ourselves now
Is it over now
Face to face
It so perfect, perfect

Just need to know
It's killing me
Show me something
I can see
Just give it up
And save yourself
It's almost like
It's not enough

Why (why) can't let this be
Every time I ask
Is there never any story
You (you) just take it all
Look through the glass
And watch me crawl

I (I) can here you say
You don't really want it
Just throw it away

So (so) it's your log now
Look me in the eye
I'll show you how

We find ourselves again
Is it over now
Face to face
Is it so perfect, perfect now
If we find ourselves now
Is it over now
Face to face
It so perfect, perfect

This can't be so perfect
This can't be so perfect
This can't be so perfect
This can't be

We find ourselves again
Is it over now
Face to face
Is it so perfect, perfect now
If we find ourselves now
Is it over now
Face to face
It so perfect, perfect
