It's meaningless to know
How this all will go
When it makes no difference
When this all will end
I can not pretend
It makes no difference

I'm so alone in my head
Underneath my own skin
I'm so alone it makes me sick
I'm so alone

Pending grive inside
Pouring from my eyes
It makes no difference
Pushing through my veins
I slowly go insain
It makes no difference

I'm so alone in my head
Underneath my own skin
I'm so alone it makes me sick
I'm so alone

Breaking down from the sound
I don't have a clue
Show me how to break it a little

(So alone)
I'm so alone in my head
Underneath my own skin
I'm so alone it makes me sick
I'm so alone

I'm so alone
I'm so alone
I'm SO ALONE!
