I am the sucker back in town  
I'm the exploiter, I'll bring you down  
I'll make you suffer, make you plead  
Manipulating your kids to disease  
Bad parasite of society  
A major threat for humanity  
I like you fear the smell of hell  
So I can know my politics will sell

Riot quiet back in time  
Cool hand genocide around  
Riot quiet back for you  
Drop your guns, yeah I'll make you do  
Riot quiet like '69  
Dope your day, it will be fine  
Riot quiet filthy youth  
I'd love to see this world die, too

I am The King of moral scenery  
Good gentlemen hate adultery  
And I could squeeze you 'till you seize  
Riot quiet back for you  
Drop your guns, yeah I'll make you do  
Riot quiet like '69  
Dope your day, it will be fine  
Riot quiet filthy youth  
I'd love to see this world die, too

I am The King of moral scenery  
Good gentlemen hate adultery  
And I could squeeze you 'till you seize  
Follow instructions or hell increase  
Yeah I will opiate your mind  
So I can operate mankind  
Regenerate blind addiction here  
Reintroduce mass infection severe
