(Verse 1)

I know you've been unfaithful to me time and time  
again  
I know you're disappointed with the way you're life has  
been  
I know you feel unworthy to receive my love again  
But I swear to you this day  
I'll never leave you till the end.

(Chorus)

I just want to shower you with my love from above  
Please don't run from me, Please don't run from me.

(Verse 2)

I see you in the morning trying to smoke your life away  
Trying to escape the pain, and the worries of the day  
Days go by and I never hear from you  
But my love is based on grace, not the things that you  
do.

(Chorus)

(Vamp)

I love you with my everlasting love; I love you with my  
everlasting  
I'll heal you with my everlasting love; I'll heal you with  
my everlasting love  
Let me save you with my everlasting love, Let me save  
you with my everlasting love  
There's deliverance in my everlasting love, there's  
deliverance in my everlasting love
