(Verse 1)

I'm gonna praise Your name even though I walk  
through the rain, every time I feel the pain, I let my  
mind go back again

I remember what You told me, that You're always  
gonna hold me, and whenever I get lonely: You are  
there.

I'm sitting on the edge of my faith, looking to the  
heavens as I wait. I can feel the wind of Your grace: I  
can hear you say:

You can make it brother, you can take it sister  
I can break it if you give me the praise

(Chorus)

Just wanna praise, just wanna love you

Gonna worship your name

Just wanna praise, just wanna love you

I'm gonna lift you up.

(Verse 2)

When I feel like I can't go through. It's time for me to go  
to my room and get on my face to meet you in my  
secret place

You always show up on time, You know how to ease my  
mind. Lift my burdens and roll the stone away.

Just like a cool breeze on a warm summer day, You  
pass by and you wipe my tears away.

I see the sunshine; I feel your love inside. I can do all  
things in You

(Chorus)

(Bridge)

You brighten up my life and it's You who dries my  
weeping eye

It's You who makes me happy; You are why I am free

Repeat
