If I take a deep breath
I can make it through this.
I've had a lot of problems
And found out ways to stop them,
And I'm such a mess.

And if I take another road,
Well who knows where it might go.
I ain't great at taking chances,
But if there was a chance,
Would I ever know?

So here's to me,
Here with you.
Here's to finally finding out
Beyond a shadow of a doubt
If I'm the one for you too.

Here's to love.
Here's to never giving up.
Here's to all the sleepless nights
I lie awake and wonder if
I'm good enough.
Here's to us.

What if you're not interested?
And what if we ain't like that?
Well, I'm tired of all the questions
And always second guessing
Everything about myself.

So here's to me,
Here with you.
Here's to finally finding out
Beyond a shadow of a doubt
If I'm the one for you too.

Here's to love.
Here's to never giving up.
Here's to all the sleepless nights
I lie awake and wonder if
I'm good enough.

Well, am I good enough?

It's in your eyes.
I can see in your smile.
Everything I ever wanted is in you.

And if I take a deep breath
I can make it through this.
I've had a lot of problems
And found out ways to solve them,
And now I'm such a mess.

So here's to me,
Here with you.
Here's to finally finding out
Beyond a shadow of a doubt
If I'm the one for you too.

Here's to love.
Here's to never giving up.
Here's to all the sleepless nights
I lie awake and wonder if
I'm good enough.
Well, am I good enough?

Here's to us.
Here's to us.
Here's to us.
Here's to us.
Falling in love...
