It feels like
I'm breaking
Your so cold
Girl I'm shaking

Your the only girl
I know that makes me feel
This way

It's like you
Control me
Your lips taste
So sweet to me

Your the only girl
I know that makes me feel
This way

Cause you're
Sugar sweet, the way you go down
The way you move around
You got me sing ohhh oh oh ohhh ohhh
This feels right, lets stay up all night, Stay up all night

The way she moves around
You know is so contagious
She makes my heart beat
So fast it's dangerous
I don't wanna close my eyes
Unless I got you by my side
So tell me something that I got to know
I won't stop now till you're coming home

Cause when you touch me
It's like I'm living a dream
Where you kiss me
Girl your my fantasy
Your the only girl
I know that makes me feel this way

Cause you're

Sugar sweet, the way you go down
The way you move around
You got me sing ohhh oh oh ohhh ohhh
This feels right, lets stay up all night, Stay up all night

She's a Sugar Rush
She's the one that I love
She makes my heart stop
I can't get enough
Way you move around girl
You got me fallin in love

She's a Sugar Rush
She's the one that I love
She makes my heart stop
I can't get enough
The way you go down girl
I think we're fallin in love
