Follow the tides
Drown in your headspin
Forget the world tonight

Leave all my joys
People are plastic
A war with elastic knights

And I know how you feel in the night
Do you know how I feel in the night?
'Cause I know why I feel all the
Pins in my needles, pins in my needles, you
Pins in my needles, pins in my needles, you

Face down holes
Pay them with love
'Cause money is hollow
This time is not for self emotions
Comfort motions are hard to notice

And I know how you feel in the night
Do you know how I feel in the night?
'Cause I know why I feel all the
Pins in my needles, pins in my needles, you
Pins in my needles, pins in my needles, you
