Lived too long, now you've come to take me to  
A place where I can die  
Lost my soul, lost my confidence in me  
Give me something but I'll try

Lived too long and waited to just drown  
In my self pity, I keep falling down

Want to be your soldier  
Want to be your slave  
I have no pride in myself

Only book that I own is called 'How to lose'  
Pick a chapter, I know them all, just choose

Lived too long and waited to find  
A place where I can die  
Lost my soul, lost my confidence in me  
Give me something but I'll try

Want to be your soldier  
Want to be your slave  
I have no pride in myself  
That's how I behave

I can't find, I can't find  
I can't find, I can't find life
