(Billy Henderson/Bob Morrison)

A town so small you could throw a rock -  
From one end to the other  
You've seen it all a the 4-way stop -  
But there's much more to discover  
The road ahead is callin' you -  
Don't be afraid, you know it's what you wanna do.

Beyond the city limit sign  
You can paint outside the lines  
Rainbows of ev'ry kind  
It's just fine to think outside the box.

You're free to be who you are  
Choose your road and go too far  
The doors don't close, there ain't no locks  
When you think outside the box  
When you think outside the box

If you stay here you'll die on the vine -  
You're never gonna blossom  
One thing is clear -  
There's just so much time -  
Before the dream's forgotten  
It's fine to live on glory days -  
If all you wanna do is sit around and watch 'em fade.
