I still remember
When I was younger
Life was so simply then
Wohoo

I spend my nights with
Both eyes wide open
So how to disappear

I can't let you go
It's the middle of the night and my heart in overload

Cause I still can't let you go
But I know when my heart you already know

Now I feel empty
Like somethings missing
How I wish you were here

I can't let you go
It's the middle of the night and my heart in overload

Cause I still can't let you go
But I know when my heart that you already know
Already Know
Already Know
