"Night Queen"

Visit "[Night Queen](#)" on MotoLyrics.com

She rambles in a known place
Is it worth risk to play an ace?
There she knows she can also mistake
It's a so deep place

I am no longer flung for giving you too much rope,
Fuel is ending and the rope has already taken fire.

Night queen,
She burns all people this night
She's wonderful this night
'Cause she's the night queen
She burns all people this night
She's wonderful this night

Nobody can berthing her too long
Everyone is ready to satisfy (every her pleasure)
Baby, are you really yourself?
Tomorrow you'll not be there

I am no longer flung for giving you too much rope,
Fuel is ending and the rope has already taken fire.

Night queen,
She burns all people this night
She's wonderful this night
Night queen
She burns all people this night
She's wonderful this night
