Are you coming and looking for me again?
Anything'll be as before.
Just give us a short while
And it will all be as before.

I'm close to you now
Where will you be tomorrow?
This is only a moment
Or is it time to decide?

Baby
You're my shout
For salvation
Baby
You're my shout
For salvation
Tonight

You're my shelter this time
I wanna feed myself of your nature
Oh this time, Oh this time,
Oh this time...

Baby
You're my shout
For salvation
Baby
You're my shout
For salvation
Tonight

And tomorrow we will fly away
Again
So fine
