Remember the days, we set out together with faith?
Remember the times, so fine, when we thought that
Nothing could stand in our way?
Then things weren't the same, the life that we knew
had to change
We've struggled through, the darkest storms
We thought we couldn't tame
Together we've tried, as we stood side by side
I knew we'd build a new world
A world of hope for ever after
Deep in my heart I just know
Right from the start, we will grow
Look where we are, we've come so far
And there's still a long, long way to go
With all of my heart, I will care
I'll play my part, I will share
With family and friends, together we'll stand
And in the end, hand in hand
We will get there
So now we begin, working together to win
Believing in trust, it must
Be possible to overcome anything
There's so much to do, there's so much we can
contribute
By sharing just a little love
We will start again anew
So why don't we try? If we stand side by side
I know we'll build a new world
A world of hope for ever after
Deep in my heart I just know
Right from the start, we will grow
Look where we are, we've come so far
And there's still a long, long way to go
