This fuel keeps killing me
It's burning out my brain
If I drink just one more
I'll surely go insane
The world goes spinning round
As I crash into the floor
Should've known it long ago
But I couldn't take no more

I'll tell you what: This round goes on me!

Warm Beer! We've got the devil by the leash
We're gonna drink this town dry
Warm Beer! When the booze runs out
I'll take what's left of me and try to get some more

Warm Beer! We've got the devil by the leash
We're gonna drink this town dry
Warm Beer! When the booze runs out
I'll take what's left of me and try to get some more

Warm Beer, Warm Beer, uh yeah!
Warm Beer, Warm Beer
