(she's still on her own, man
Can you her me?
Yeah she's still on her own
We gotta take her out
See i can't do if she's on her own
Yeah i don't what we do, i don't care,
Lets just take her out)

(should we sing some kinda chorus? YEAHHHH)

She's the rats on my finger
The rats on my finger
Rats on my nose
She's the rats on my finger
Finger, the rats on my finger
Laughed at my nose

(YEAHHHHH)
(ok mac, are you ready?)

She's the rats on my finger
The rats on my finger
Rats on my nose
She's the rats on my finger
The rats on my finger
Laughed at my nose
