

Silver Sun "Yellow Light"

Visit "[Yellow Light](#)" on MotoLyrics.com

I was in a house, my baby in the wood
The place was small and it smelt of sleep
Where we were building a world
Where we were building a world
(chorus)
And as we moved in, to the autumn night
And he was in the yellow light
And as we moved in, to the autumn night
And he was in the yellow
He was in the yellow
He was in the yellow
With her smiling face
I was bound to fly with her into dream space
I was lost like a drop-out
And she could help me out (Help me out)
And we used up hours, just with whispers
So don't take a bus, don't take a train,
Don't take a car
Just take the love-boat
Just take the love-boat
(repat chorus)
