"Earth, Wind, And Fire"

Visit "[Earth, Wind, And Fire](#)" on [MotoLyrics.com](#)

The world is composed,
of all these many thing,
the Earth is from our creator,
He created us,

He created all living things,
He created Earth,
He created wind,
He created Fire

Earth, wind, and Fire
Make up our world,
we are the many details,
but first it was Earth, wind and fire

The land we live on was created, Earth
the climate we have was created, Wind
the food we cook was created, Fire
We wouldnt be those details without them

Earth, wind and fire
Make up our world,
we are the many details,
but first it was Earth, wind, and fire

We are the many details,
but first it was Earth, wind, and fire.
