Mary Jane I'm gettin so fed up with all the shit that  
everyone keeps handing me  
Mary Jane whisper in my ears cause you're the one that  
truly understands me  
Mary Jane you know you build me up and I just beg you  
girl to never leave me  
Chorus  
I wanna hear ya scream my name, Mary Jane  
You get me fucked up, get me fucked up inside my  
brain  
Scream my name Mary Jane  
You get me so high, get me so high  
I can't, no I can't  
Baby Baby won't you just sit back and help me feel the  
path out so much faster  
A psychedelic little point of view that opened up my  
eyes  
Mary Jane, don't let the peace run dry  
So please spark me right now, right now  
[Chorus] Mary Jane don't you know I like to change  
which way the river flows  
She climbs down inside me softly  
Claims my soul never ever wants to leave  
But I just wanna' fly  
[Chorus]  
Get fucked up  
Oh  
Get fucked up  
Oh my Mary Jane  
Oh
