Iâ€™m going to let you go

Oh Heidi Iâ€™m sorry
But I wish we never met at all
My heartâ€™s all empty, and I canâ€™t find my soul
You know I hate myself
But I love myself too much for this
I just wish I never touched you
I wish I never tasted your lips

So cheat and mislead
Do whatever you please
So cheat and mislead, yes
Do whatever you please
Just know
Iâ€™m going to let you go

Oh Heidi Iâ€™m horny
But youâ€™re never going to feel my touch
You tortured and teased
Too much, too much, too much, too much
You know I love you
But I love myself too much for this
I just wish I never touched you
I wish I never tasted your lips

Yeah get with my friends
Just to show me you can
Yeah get with my friends, yes
Just to show me you can
And I will stand
And I will let you go
