I got you wrapped around my little finger
And it feels good
I call you and you come running
I knew you would
Let me seduce you
I'll use my hands
Lose all of your thoughts
Lose your head
Let it all go and do as you please
A pleasure for you is a pleasure for me

We undress each other and you start to tease
Against my stomach
I feel you breathe
Your smiling 'cos you're in control
But baby that won't last long
On the floor now
We tussle and groan
You move to my rhythm and scream as I moan
I give you all I got, all that you want
We finish together and lay in each other's arms
