[Verse 1]

You may need protection
Every year it feels like the world is gonna end
Day after day
I feel myself slowing down
What does it mean?
The air has changed
It's getting harder to breath

[Chorus]

It feels like the world is gonna end now
because it has been a thousand years since the world
was made
Lost in the blink of an eye
If the sky keeps fallin'
The world will come tumblin' down
in a thousand years

[Verse 2]

Or so it would seem
Sail me away to a distant shore
Where everything's fine
Tell me my friend
Can you imagine a place
Free of boundaries and lies
There's blood on the wind

[Chorus]

It feels like the world is gonna end now
because it has been a thousand years since the world
was made
Lost in the blink of an eye
If the sky keeps fallin'
The world will come tumblin' down
in a thousand years

And it's come all of the way from faraway skies
Take me away to a different world
Where everything's fine

[Chorus]

It feels like the world is gonna end now
because it has been a thousand years since the world
was made
Lost in the blink of an eye
If the sky keeps fallin'
The world will come tumblin' down
in a thousand years

[Chorus]

It feels like the world is gonna end now
because it has been a thousand years since the world
was made
Lost in the blink of an eye
If the sky keeps fallin'
The world will come tumblin' down
in a thousand years

It feels like the world is gonna end now
It feels like the world is gonna end now
It feels like the world is gonna end now
