Curious and bored
Stumbled through the door
Tripping over expectations
She never knew before
Turn's her gaze to me
I think she caught me
But I just had to see

In this kind we need discipline, oh oh
Getting confused with my way, oh oh
That keeps me hanging on
For so long, so long

Curiosity killed the cat
Curiosity is just silly
Curiosity is special and you keep this flame
I have a light in me
I'm telling you
You have gotten sued on your bills
And you keep this flame
I have a light in me

Some things you say
Take me by a big surprise
I like your style
(Oh, give me advice)
Just tell me the truth
Don't stand at the ticket booth
And you ran away a mile
(Yeah, this is curiosity)

Singing your song with harmony, oh oh
Love is everywhere to be found, oh oh
Everybody turn your cameras on
On for so long, so long
Oh so long, so long

Curiosity killed the cat
Curiosity is just silly
Curiosity is special and you keep this flame
I have a light in me

It never ended
You've still gotten sued on your bills
And you keep this flame
I have a light in me

Oh, don't you know
Plow a crop
Take a bow
Wanna take a sup?
Fill the emptiness
How far to take it
Tonight there's a little too much
Wish away the bush

Curiosity killed the cat
Curiosity is just silly
Curiosity is special and you keep this flame
I have a light in me
I'm telling you
You have gotten sued on your bills
And you keep this flame
I have a light in me

Curiosity killed the cat
Curiosity is just silly
Curiosity is special and you keep this flame
I have a light in me
I'm telling you
You have gotten sued on your bills
And you keep this flame
I have a light in me

Oh, I have a light in me
Oh, I have a light in me
Oh oh, and you keep this flame
I have a light in me
