[Verse 1]

You claimed you love me  
You said you'd care for me  
Meet any of my needs  
You said you'd do for me  
You said you'd stay with me  
But did you love me  
And did you hold me

But still I stuck by you  
Even when you took me through  
Always respected you  
Called you my baby boo  
Did I protect you

[Chorus]

But you made a fool of me  
And I cannot believe  
I thought Mr Stynes was gonna have I knew you were trouble  
I thought you were mine  
You proved your love for me  
Took care of all my needs  
You fulfilled my every dream  
But you made a fool of me  
And I cannot believe  
I thought Mr Stynes was gonna have I knew you were trouble

[Verse 2]

Gave me your everything  
Kept the promises made  
Even said you'd stay  
Gave my heart to you  
Cause I thought love was true  
Always felt that we

But still I stuck by you  
Would love endlessly

I gave you the best of me  
Called you my baby boo  
Did I protect you

[Chorus]

But you made a fool of me  
And I cannot believe  
I thought Mr Stynes was gonna have I knew you were  
trouble  
I thought you were mine  
You proved your love for me  
Took care of all my needs  
You fulfilled my every dream  
But you made a fool of me  
And I cannot believe  
I thought Mr Stynes was gonna have I knew you were  
trouble

It's not like you cared 'bout me  
Seems like I didn't mean a thing  
Should have been convinced to leave  
But I told you I'm here for you

But still I stuck by you  
Even when you took me through  
Always respected you  
Called you my baby boo  
Did I protect you

[Chorus]

But you made a fool of me  
And I cannot believe  
I thought Mr Stynes was gonna have I knew you were  
trouble  
I thought you were mine  
You proved your love for me  
Took care of all my needs  
You fulfilled my every dream  
But you made a fool of me  
And I cannot believe  
I thought Mr Stynes was gonna have I knew you were  
trouble
