[Sryan]

Learn to love again
Learn to love again
Learn to love again
Learn to love again
Learn to love again
Learn to love again
Learn to love again
Learn to love again

[Sryan & Alexis Jordan]

Learn to love again
Learn to love again
Learn to love again
Learn to love again

[Sryan]

I will not fall,
Is it a matter of love, or a matter of pride?
Can't stop a broken heart from bleeding
Don't make it harder than it has to be
Nothing worth love is ever easy
Love is never easy
Better to love and lose than never ever love at all?
So tell me something new, tell me why do fools fall?
Tell me why, yeah why do they fall?
Ain't a matter of love, it's a matter of pride

[Alexis Jordan]

So if you want my love tell me now
And if you need my love I'll show you how
Just open up your heart and let me love you
Seems like we're guarding our hearts again
Trust is the key that we're missing so bad
Cause I..... want to be happy and never sad again
Cause I..... want to be happy and never sad again

[Sryan]

Learn to love again
Learn to love again
Learn to love again

Learn to love again

[Sryan & Alexis Jordan]

Learn to love again

Learn to love again

Learn to love again

Learn to love again

[Sryan]

Seems like we've got our share of differences

We can't even agree to disagree

Talking when we should be listening

So trynna to meet our needs

Is an impossibility

You say (I don't give you respect)

But I say (I'm suffering from neglect)

It's all just the same

No one takes the blame

But the conclusion still will remain

[Alexis Jordan]

So if you want my love tell me now

And if you need my love I'll show you how

Just open up your heart and let me love you

Seems like we're guarding our hearts again

Trust is the key that we're missing so bad

Cause I..... want to be happy and never sad again

Cause I..... want to be happy and never sad again

[Sryan]

Learn to love again

Learn to love again

Learn to love again

Learn to love again

[Sryan & Alexis Jordan]

Learn to love again

Learn to love again

Learn to love again

Learn to love again

[Sryan]

That there's no sense in fighting

About who's wrong or right when

There's no end in sight so

We both need to learn how to love

Maybe there might be

A chance even slightly

If we both agree

We both need to learn how to love

[Alexis Jordan]

So if you want my love tell me now
And if you need my love I'll show you how
Just open up your heart and let me love you
Seems like we're guarding our hearts again
Trust is the key that we're missing so bad
Cause I..... want to be happy and never sad again
Cause I..... want to be happy and never sad again

[Sryan]

Learn to love again
Learn to love again
Learn to love again
Learn to love again

[Sryan & Alexis Jordan]

Learn to love again
Learn to love again
Learn to love again
Learn to love again
