We want to have naps and play video games
Cause these are our hobbies
Yeah, Bru-Bru-Bruen
Come on

It's life, yeah
Not the underwater world, yeah
It's time to change the rules and play our game
You're good, good, good, good, oh

So much violence, yeah
We're playing Far Cry 3
Who cares about the age limit for the game
And we're good, good, good, good, oh

We are gonna play video games til the morning comes
and then we'll have a nap
We love to live our lives like this
The barrett sniper, is gonna be good
And we gonna kill all our enemies and and

We want to have naps and play video games
Cause these are our hobbies
We are gonna keep playing til the morning
And we are cool, cool, cool

We want to have naps and play video games
Cause these are our hobbies
We are gonna keep playing til the morning
And we are cool, cool, cool, let's play all night

Battlefield 3, yeah
The Call of Duty shield, yeah
Let's shoot the enemies and the zombies with the guns
You're good, good, good, good, oh

No ammo, no
No, not until it reloads, no
We are going on the boat to evacuate
Cause we're afraid, oh

We are gonna play video games til the morning comes
and then we'll have a nap
We love to live our lives like this
The barrett sniper, is gonna be good
And we gonna kill all our enemies and and

We want to have naps and play video games
Cause these are our hobbies
We are gonna keep playing til the morning
And we are cool, cool, cool

We want to have naps and play video games
Cause these are our hobbies
We are gonna keep playing til the morning
And we are cool, cool, cool

This is the best sleepover ever
I want it to last forever
We like to have a life like this, playing video games
And having lots of naps

We want to have naps and play video games
Cause these are our hobbies
We are gonna keep playing til the morning
And we are cool, cool, cool

We want to have naps and play video games
Cause these are our hobbies
We are gonna keep playing til the morning
And we are cool, cool, cool, let's play all night
