Only break my heart
Only there to run
Can I hold your hand?
He takes you over
You can stand like a hallow cane
I wanna rock 'n' roll, roll, roll, roll

You can not escape it, not escape it
Or run away from pain, away from pain
There the help is true, help is true
I wonder what the hell I'm supposed to do, supposed to do

At the moment that I feel I got through
That's aware, aware I found you
'Cause I don't wanna see you're around the sight
I can take what a pain from my world inside
I've tried to hold you just to be together that like any man
Broken pieces but you'll keep breathing and move over again
We'll see that on the faces broken runes town
You think you're only one who solved me this doubt
I wanna rock 'n' roll

Only break my heart
Only there to run
Can I hold your hand?
He takes you over
You can stand like a hallow cane
I wanna rock 'n' roll
I wanna rock 'n' roll

You can not escape it, not escape it
Or run away from pain, away from pain
There the help is true, help is true
I wonder what the hell I'm supposed to do, supposed to do

At the moment that I feel I got through
That's aware, aware I found you

'Cause I don't wanna see you're around the sight
I can take what a pain from my world inside
I've tried to hold you just to be together that like any
man
Broken pieces but you'll keep breathing and move over
again
We'll see that on the faces broken runes town
You think you're only one who solved me this doubt
I wanna rock 'n' roll

Only break my heart
Only there to run
Can I hold your hand?
He takes you over
You can stand like a hallow cane
I wanna rock 'n' roll
I wanna rock 'n' roll
I wanna rock 'n' roll
Just wanna rock 'n' roll
I wanna rock 'n' roll
I wanna rock 'n' roll

Only break my heart
Only there to run
Can I hold your hand?
He takes you over
You can stand like a hallow cane
I wanna rock 'n' roll
I wanna rock 'n' roll, roll, roll, roll
