"Sing Out Loud"

Visit "[Sing Out Loud](#)" on MotoLyrics.com

There is this thing

If the world is worrying
You better be burying
You better be burying
You better be burying

Back in the day
I meant to say
I meant to say
I meant to say

That my voice is fabulous
Well let's see
Well let's see
Well let's see

Back in the old days
I meant to say
I meant to say
I meant to say

I am gonna sing out loud, in front of the crowd
Sing out loud, in front of the crowd
Sing, from the bottom of your heart
Sing, blossom every broken part

I am gonna sing out loud, in front of the crowd
Sing out loud, in front of the crowd
Sing, from the bottom of your heart

There is this thing that's like touching except you don't
touch

Just sing
Just sing
Just sing

(There is this thing)

Can we get back to where we started

When creation lived peacefully in your hands
Before the wars began, begun, begun
And all these years we have been divided
Jesus' voice has been gently calling us home
And we can't wait anymore, anymore, anymore

Pride has no purpose in God's kingdom
Now's the time for his church to join hands again
Oh together we must stand
This is a call for the national implementation
Of mother to child transmission prevention
Programme in all the maternity hospitals

If the world is worrying
You better be burying
You better be burying
You better be burying

Back in the day
I meant to say
I meant to say
I meant to say

That my talent is awesome
Well do it
Well do it
Well do it

Back in the old days
I meant to say
I meant to say
I meant to say

I am gonna sing out loud, in front of the crowd
Sing out loud, in front of the crowd
Sing, from the bottom of your heart
Sing, blossom every broken part

I am gonna sing out loud, in front of the crowd
Sing out loud, in front of the crowd
Sing, from the bottom of your heart

There is this thing that's like touching except you don't
touch

Just sing
Just sing
Just sing

Women are the mothers of the world, my friend
I tell you womankind is strong

Take your beautiful self up to the heights again
Back to the place where you belong

And the women are the mothers of the world, my friend
I tell you womankind is strong
Take your beautiful self up to the heights again, again,
again, again, again

I am gonna sing out loud, in front of the crowd
Sing out loud, in front of the crowd
Sing, from the bottom of your heart
Sing, blossom every broken part

I am gonna sing out loud, in front of the crowd
Sing out loud, in front of the crowd
Sing, from the bottom of your heart
Sing, blossom every broken part

I am gonna sing out loud, in front of the crowd
Sing out loud, in front of the crowd
Sing, from the bottom of your heart

There is this thing that's like touching except you don't
touch
