Sizzling girls
Where's all the girls
Where's all the good one's gone
The stable ones
the single ones
the ones with nothing wrong

[Sryan]

Say hello to my mate John
he's quite the sensitive type
just split with his girlfriend
and now he's on the scene again
John says his girl weren't out there
no good ones he don't care
been lookin in the wrong place
well John I'm on the case
I like 'em short, I like 'em tall
I like 'em big, I like 'em small
I like 'em with hair, I like 'em bald
To make a long story short, I like 'em all
I like this girl, I like that girl
I like the skinny girl, I like the fat girl
I like the college girl and the hoodie rat too
I like the church girl Ms. 'Goodie Goodie Two Shoes'

[Sryan]

I like 'em shy, I like 'em bold
I like 'em young, I like 'em old
I like 'em smart, I like 'em dumb
I like women anyway they come
Man, I like 'em when they're beautiful
I like 'em when they're ugly
I like it when they ignore me
I like it when they bug me
Ain't a woman that I don't like
I got drunk one time and tried to talk to a dukel like the
wrong girl, I like the right girl
I like the black girl, I like the white girl
I like the brown girl, I like the yellow girl
I like the rich girl, I like the ghetto girl

I like the nice girl, I like the mean girl
Outer space, I even got a green girl
I like the city girl, I like the country girl
Don't let me get high and get the munchies, girl
I met Lil' Red Riding hood
We took a ride to my hood and I rode her real good
Like Martin Luther King, I have a dream
To make Red Riding Hood holler and scream
My girl got two big lips, taste like potato chips
My girl got two big boobs just like two inter tubes
My girl got two big hips just like two battleships
My girl got real long hair down to her underwear
