[Sryan]

When you get home
Just send me a text
With the smiling face and don't forget the s
Cause nothing makes me happier when I'm all alone
Than walking to my room and hearing
On my phone
Can brighten up my day
Like taking a photo u put a smile on my face
And I just can't wait to see u again
So text me thru the night
Like I was your best friend
I wanna know what u're thinking,
Who u're with, are u alone?
Girl text me some freaky cause u know it turns me on
Don't matter what time
Don't matter where u at
I ain't tryna play cool u know I'll text u right back
Then you can

[Chorus]

Text me on viber
I ain't even gonna hang around
You got me so sprung
You could send me a text for free
You could call me for free
Viber is what I'm loving right now
I'm chatting with my love
She is such a charm
Viber is what I'm loving right now
Along with the girl I love

[Sryan]

Once again I sit and wonder
Was something I said so wrong
You're the one I really need now
Give me the strength to carry on
There again I'm falling, can you here me calling
I need you with me now
I've just got to get a message to you
It's only you I want to run to

I'll do anything I can do and I won't stop 'til I get
through
Like I was your best friend
I wanna know what u're thinking,
Who u're with, are u alone?
Girl text me some freaky cause u know it turns me on
Don't matter what time
Don't matter where u at
I ain't tryna play cool u know I'll text u right back
Then you can

[Chorus]
Text me on viber
I ain't even gonna hang around
You got me so sprung
You could send me a text for free
You could call me for free
Viber is what I'm loving right now
I'm chatting with my love
She is such a charm
Viber is what I'm loving right now
Along with the girl I love

Text me on viber
I ain't even gonna hang around
You got me so sprung
You could send me a text for free
You could call me for free
Viber is what I'm loving right now
I'm chatting with my love
She is such a charm
Viber is what I'm loving right now
Along with the girl I love

[Rita Ora]
You can't hold us down
We're running fast and we're not stopping now
Going for the gold, we're going home
Yeah, when we die we'll return the prize
To the one who kept us running
Was right there by our sides
What a way to go home!
I'm like text, text, text me
But you don't talk back to me
So there's no room for God's own words on city wally
That's ten more reasons to be praying for us all
We'd better fight because it might not be too long
Before they say they've made our faith against the law

[Chorus]
Text me on viber

I ain't even gonna hang around
You got me so sprung
You could send me a text for free
You could call me for free
Viber is what I'm loving right now
I'm chatting with my love
She is such a charm
Viber is what I'm loving right now
Along with the girl I love

Text me on viber
I ain't even gonna hang around
You got me so sprung
You could send me a text for free
You could call me for free
Viber is what I'm loving right now
I'm chatting with my love
She is such a charm
Viber is what I'm loving right now
Along with the girl I love
