Ain't got a heart just a big blood clot  
Ain't got a heart just a big blood clot  
And it's all for you

Ain't got a soul just a big black hole  
Ain't got a soul just a big black hole  
And it's all for you

So don't worry baby, 'cause everything will be alright  
When they come looking for you  
I'll be pointing at them with a big black gun

Ain't got eyes got a burning fire  
Ain't got eyes got a burning fire  
And it's all for you

Ain't got hope got a sea of desire  
Ain't got hope got a sea of desire  
And it's all for you

So don't worry baby, 'cause everything will be alright  
When they come looking for you  
I'll be pointing at them with a big black gun

Big black gun, big black gun  
I'll be pointing at them with a big black gun  
Big black gun

So don't worry baby, 'cause everything will be alright  
When they come looking for you  
When they come looking for you  
When they come looking for you  
I'll be pointing at them with a big black gun
