It's time to party...
Drop!

Fill a glass and drink it down, We feel intoxicated! (Intoxicated)

This club is getting hot, And we're just getting started! (Getting started)

The dance floors calling our names, Let's hit it on the spotlight, (The spotlight)

Are you out or you game? Feel the beat run through your veins

I just can't get enough of your bass, It's Saturday night and you feel so right! Tonight were going to have a good time, Being here dancing, you feel so fine!

It's about time that you show a little more, Slip to the ground and get dirty on the floor! And if you want to get naughty, Then I can take you by my side!

The shots are lining up, That means it's time to party! (Time to party)

The strobes flash everywhere, And our bodies are grinding! (Bodies are grinding)

We both scream and shout, Then throw our fists in the air! (Fists in the air)

So are you out or you game?

Feel the beat run through your veins

I just can't get enough of your bass, It's Saturday night and you feel so right! Tonight were going to have a good time, Being here dancing, you feel so fine!

It's about time that you show a little more, Slip to the ground and get dirty on the floor! And if you want to get naughty, Then I can take you by my side!

Oh baby, baby can't you see,
Were here to party, just you and me!
Tonight is when we have no fear,
So get yourself up and drink a little more,
(Drink a little more, drink a little more, drink drink drink drink a little
More)

I just can't get enough of your bass, It's Saturday night and you feel so right! Tonight were going to have a good time, Being here dancing, you feel so fine!

It's about time that you show a little more, Slip to the ground and get dirty on the floor! And if you want to get naughty, Then I can take you by my side!

I just can't get enough of your bass,
(Just can't get enough)
It's Saturday night and you feel so right!
(You feel so right)
Tonight were going to have a good time,
Being here dancing, you feel so fine!
(You feel so fine!)

It's about time that you show a little more, (Show me some more)
Slip to the ground and get dirty on the floor!
(Let's get dirty on the floor)
And if you want to get naughty,
(I want to get naughty)
Then I can take you by my side!
(By my side)
