(It's Steven Joseph)
I'm ready to hold you,
I'm ready to show you,
What I want to do you,

And I won't let you go,
I'll promise you that much,
Let's try to keep it going,

And I know that it's hard,
But things will change,

So I think it's time that you keep it only me...
And you forever baby,
Don't want nobody else in this with us!

And I just want to have it you and I...
Forever and always baby,
Don't want nobody else in this with us!

I already want you,
I already need you,
I try so hard to please you,

But there is always something,
In the way...
Stopping me from getting you,

So it's time that we hold it,
Let's grasp it forever,
And keep them out of the way,

And I know that it's hard,
But things will change,

So I think it's time that you keep it only me...
And you forever baby,
Don't want nobody else in this with us!

And I just want to have it you and I...
Forever and always baby,

Don't want nobody else in this with us!

Now I just want this to be forever...
Don't want it to go away,

Cause I just want you by my side...
Don't want you to go away,

So I think it's time that you keep it only me...
And you forever baby,
Don't want nobody else in this with us!

And I just want to have it you and I...
Forever and always baby,
Don't want nobody else in this with us!

I try so hard to keep you and I,
So lets keep it that way...
Lets not get anybody else in this with us ever again,

I love you...
Forever and always,
SJ.
