Tonight is the night that I think it'll work,
Well come together as one without a fear,

The mind and soul will set itself free,
Well lose the past inside ourselves, you and me (x4),

I just want you to,
Grab my hand and don't let it go

I just want you to,
Fight the pain and don't let it show

Somewhere in this night there will be a key,
Unlock the door between us, Open up inside,

Begin to lose control of the emotions,
Unlock what isn't real anymore, more (x4),

I just want you to,
Grab my hand and don't let it go

I just want you to,
Fight the pain and don't let it show

I just want you to,
Grab my hand and don't let it go

I just want you to,
Fight the pain and don't let it show

Grab my hand,
Don't let it go,

Fight the pain,
Don't let it show

I just want you to,
Grab my hand and don't let it go

I just want you to,
Fight the pain and don't let it show

I just want you to,
Grab my hand and don't let it go

I just want you to,
Fight the pain and don't let it show
