Sometimes I taste sweet...  
I can give you love,  
And make you feel alive!

Sometimes I taste crude...  
I can make you faint,  
And then you'll feel dead!

If you take me,  
It'll save you,  
And bring you back to reality...

But if you break me,  
It could thrill you,  
And leave you dead center in this shit...

I'll be your next fix,  
Something that you crave,  
So you just keep on using me...

The horror from outside,  
You're always stuck inside,  
I just feel like I'm going insane!

I'm going insane,  
I'm going insane,  
I said I'm going insane!

There times that you can't give it up...  
I'll make you black out,  
And it feels so good!

There times that you're losin' your head...  
I'll make these walls spin,  
You just want it to end!

If you take me,  
It'll save you,  
And bring you back to reality,

But if you break me,

It could thrill you,  
And leave you dead center in this shit...

I'll be your next fix,  
Something that you crave,  
So you just keep on using me...

The horror from outside,  
You're always stuck inside,  
I just feel like I'm going insane!

I'm going insane,  
I'm going insane,  
I said I'm going insane!

Now that I have lost it,  
You're going to take control...  
I know that you'll regret it,  
So now you'll pay the toll!

I'll be your next fix,  
Something that you crave,  
So you just keep on using me...

The horror from outside,  
You're always stuck inside,  
I just feel like I'm going insane!

I'm going insane,  
I'm going insane,  
I said I'm going insane!
