Yellow and black
Eyes like the sky
Fallen angel
Perfect in every way

Break it open

I slip away
We fuck on the floor
Beautiful high
I'll never walk away

Break it open
Break me open now

She sees through my imperfections
A million miles apart and counting
Everybody's got their opinions
About me and my decisions
I know what you wanted me for
Could I pretend you need me?
Help me oz I'm trying so hard
I'm just so insecure

Break me open
Break it open
I want it

All alone and I'm sure
Shade my lie inside of her

I disguise she purifies my
Mistake one more time

Close my eyes follow her
Thin blank lines I've lost the words
She makes me feel like I should
I'm all right

Break it open
Break me open now

This is my only life
I will not live your lie
