You see, the name is S-I-M-O-N, the game is P-O-P  
You see, the name is S-I-M-O-N, the game is P-O-P

The name is S-I-M-O-N, the game is P-O-P  
You see, the name is S-I-M-O-N, the game is P-O-P  
You see, the name is S-I-M-O-N, the game is P-O-P  
You see, the name is S-I-M-O-N, the game is P-O-P

Got your attention now I'm gonna keep it, better listen  
up  
This one's for the people who've been told they're  
never good enough  
The little girls and boys who dream of what they wanna  
be  
The little girls and boys who grow up into you and me

But you and we got a little secret in our playbook  
A little something that'll really shake the game up  
Something for the people who don't think that you  
deserve  
Now you got a super weapon that can take over the  
earth

Put your guns up, put your laser guns up  
Put your guns up, put your laser guns up  
You take a laser gun and you put it in the air  
And you fire to the sky like, eh eh eh

Put your guns up, put your laser guns up  
Put your guns up, put your laser guns up  
You take a laser gun and you put it on stun  
And you fire to the sky like, eh eh eh

The name is S-I-M-O-N, the game is P-O-P

We're always trynna make it but making it big is so  
hard

Before you take a bullet think you better get a  
bodyguard  
Build some walls of steel around yourself before you  
go  
'Cause rejection is the name of the game  
But do you listen, no

You struggle and fight and yeah you're probably gonna  
be alright  
So get your flirty ass up to the mark and then you take  
your shot  
You're only gonna get one chance to make the world  
aware  
Of who you are what you do so you'd better come  
prepared

Put your guns up, put your laser guns up  
Put your guns up, put your laser guns up  
You take a laser gun and you put it in the air  
And you fire to the sky like, eh eh eh

Put your guns up, put your laser guns up  
Put your guns up, put your laser guns up  
You take a laser gun and you put it on stun  
And you fire to the sky like, eh eh eh

The name is S-I-M-O-N, the game is P-O-P

There's a gun for me, there's a gun for you  
Better shoot to kill, you know what to do  
Break a line, to the time, need to find the clip  
Two fingers to the face that's how you make a hit

There's a gun for me, there's a gun for you  
Better shoot to kill, you know what to do  
I did anything and everything no matter what they  
costed, to me  
But it left me feeling broken and accosted  
I put a flame above your head just like the [inaudible]  
Now hands where I can see them 'cause you all are  
going hostage

I've done this before, now get your face on the floor  
Then put your motherfucking lasers up and say you  
want more  
Because I, because I, because I

Put 'em up

Put your guns up, put your laser guns up  
Put your guns up, put your laser guns up

You take a laser gun and you put it in the air  
And you fire to the sky like, eh eh eh

Put your guns up, put your laser guns up  
Put your guns up, put your laser guns up  
You take a laser gun and you put it on stun  
And you fire to the sky like, eh eh eh

Put your guns up, put your laser guns up  
Put your guns up, put your laser guns up  
You take a laser gun and you put it in the air  
And you fire to the sky like, eh eh eh

Put your guns up, put your laser guns up  
Put your guns up, put your laser guns up  
Put your guns up, put your laser guns up  
To the sky like, eh eh eh
