Can you hear it over your voice ringing out like a bell?
Uninspired yet motivated losing track of the days
Peel the sickness away from your eyes make it worth
your while
Well it's gone and it's over now
You never thought that it would come
Tourniquet sort of ties you down
I never wanted truth through your eyes
Passing gently it's silence scares me
Why am I so afraid?
You can't show me because you're all guilty we
Live in fear of regret
Well it's gone and it's over now
You never thought that it would come
Tourniquet sort of ties you down
I never wanted truth through your eyes
Does it ever make you wonder?
Do you ever hear the rain?
Did you get everything you wanted?
Did it make you feel like you thought it
Would?
Now you're flying you're up there by
Yourself
Take a look around you and notice
That you've left us now
Well it's gone and it's over now
You never thought that it would
Come
Tourniquet sort of ties you
Down
I never wanted truth
Through your eyes
Your eyes your eyes
