Shadows come together,
Forming pictures in my mind
It comes together,
Forms into a story life
One foot in my past,
Look into another time
I'm pulling foward,
Need to get across that finish line

I'll look up the world falls down on me
But it won't bring me down
I'll look foward scared, I wanna see
But it won't bring me down
Yeaaaaaa

Fall Away
Fall Away

Cause I'm looking at a future,
While I'm looking in my heart
Doesn't one have to hurt
For the other one to strive
I know the answer,
And it's tearing me apart
Don't wanna be the one that is looking,
Back so very far

I'll look up the world falls down on me
But it won't bring me down
I'll look foward, scared, I wanna see
But it won't bring me down
Yeaaaaa

Fall Away
Just Fall away
(Mmmm)Fall away
MMMM let go and
Fall Away

Just let go
And Fall Away

(You can hold on to everything time changes)
Fall Away
(You can stay on that past that keeps on fading)
Fall away
(You can hold on to everything time changes)

Just let go
Just let go
Fall Away
(You can stay on that past that keeps on fading)
Just let go
Just let go
And Fall Away
(You can hold on to everything time changes)
Just let go
Just let go
And Fall away
(You can stay on that past that keeps on fading)
