Do people have a tendency to dump on you

Does your group have more cavities than theirs

Do all the hippies seem to get the jump on you

Do you sleep alone when other sleep in pairs

Well there's no need to complain

We'll eliminate your pain

We can neutralize your brain

You'll feel just fine

Now

Buy a big bright green pleasure machine

Do figures of authority just shoot you down

Is life within the business world a drag

Did your boss just mention that you'd better shop
around

To find yourself a more productive bag

Are you worried and distressed

Can't seem to get no rest

Put our product to the test

You'll feel just fine

Now.

Buy a big bright green pleasure machine

You better hurry up and order one
Our limited supply is very nearly gone
Do you nervously await the blows of cruel fate
Do your checks bounce higher than a rubber ball
Are you worried 'cause your girlfriend's just a little late
Are you looking for a way to chuck it all
We can end your daily strife
At a reasonable price
You've seen it advertised in Life
You'll feel just fine
Now
Buy a big bright green pleasure machine
