

Simon Says

"BRIDGE OUT"

Visit "[BRIDGE OUT](#)" on MotoLyrics.com

Look at all these people running, waving for our help

observe through glass

look at all the houses sinking, backyards flooding, and
lives just float away

the water's overoverflowing

make it slow down

just wanna be the one to tell you it's alright

just wanna be the one to hear you're okay

children fill the boats and say goodbye to all the
memories of home

wash away the dreams, the future, the memories of
birthdays every year

the water's overflowing

make it slow down

just wan na be the one to tell you it's alright

i wish i could take off and fly over

i wish i could be the one to save your life

just wanna be the one to hear you're okay

it's all going under
